

2020 Summer iPad Care Guide

Greetings to All!

This year Bishop Chatard has made the decision not to collect iPads from the students; however, we need help from both you the Student and Parents. Below is a quick Guide to help maintain your iPad during the summer.

- 1. Charge your iPad

- *Please continue to charge your iPad **often**, using the correct kind of iPad charger. Please refrain from using an iPhone charger.*
- *The school will be pushing updates for the Apps during the summer and your iPad will need to have power and be connected to your home WiFi to do so.*

- 2. Please Manually Update your iPad to version 13.4.1

- *This will make sure everyone is using the same version as well as have the same version of the Apps when we meet back in the Fall.*
- *Go to: Settings > General > Software Update > Download & Install*

- 3. Concerns with your iPad?

- *Reach out to GetHelp@bishopchatard.org as soon as possible. If you have any concerns with your iPad or happen to break your iPad, the sooner we know the better.*
- *We can make arrangements to meet at the school for drop off to begin the repair process.*

- 4. Organize your Data

- *With school out for the summer now is a great time to organize your data on your iPad. Perhaps you want to delete old content such as videos, pictures or files. Maybe you would like to keep those files and organize them within Google Drive to make ready for the new year. If you would like to know more about File organization on the iPad and best practices email GetHelp@bishopchatard.org.*
