

If while working on your iPad you find that it has frozen on a screen follow these steps below.

Please read all the instructions first before actually doing them.

1. Press and hold down the Sleep/Wake Button AKA Power Button & the Home Button ... until the screen goes Black.
2. Once the screen goes Black let go of the Home Button but!... Keep holding down the Sleep/Wake Button
3. Once you see the Apple Logo let go of the Sleep/Wake Button.
4. Your iPad should come back to the Home Screen and you can re-enter your app or Test at this time.
